

Scientific Miracles in the Qur'an and Sunnah aims to develop skills for scientific research in the area of scientific inimitability. An elite group of scientists and researchers in the field of the scientific inimitability of the Qur'an and Sunnah took part in the preparation of this book.

- *Scientific Miracles in the Qur'an and Sunnah* is ratified by the Executive Council of the 120 Islamic Universities League.
- *Scientific Miracles in the Qur'an and Sunnah* outlines the fundamental information that is required to explain the scientific inimitability of the Qur'an and Sunnah, and the religious and scientific evaluation standards of the scientific research.
- Several scientific facts and their facets of inimitability are explained.
- The following chapters are included:
 1. Essence of Scientific Inimitability
 2. Embryology & Anatomy
 3. Life Sciences
 4. The World of Animals
 5. Meteorology & Astronomy
 6. Geology
 7. Oceanography
 8. Preventive Medicine
 9. Food, Drink and Unlawful Behavior
 10. Nourishment & Cure

Scientific Miracles in the Qur'an and Sunnah was printed at the expense of Mabarrat Bazar Al-Khayriyyah
